

Our Bromesberrow Curriculum

Perseverance Respect Motivation Cooperation Kindness Pride

Reaching for the Stars

Intention

What is our aim?

- A curriculum that develops the whole child, so that each individual is able to *reach for the stars* in their learning and achieve. We believe in developing potential without limitations.

Implementation

How will we do this?

- Plan for rich and varied learning opportunities; making learning fun, creative, connected and relevant.
- Provide a language rich, reading-focused curriculum,
- Embracing and celebrating 'what makes us different- we are a patchwork quilt of learners, and when combined are a strong and diverse community.

Impact

How do we know when we are successful?

- Children who enjoy learning and consistently do well in a range of subjects, making progress and achieving.
- Involved parents, who feel empowered to support their children's learning.
- Children who are confident and emotionally resilient to be *who they are* and know that they can contribute to and be a part of society beyond Bromesberrow.
